

The College has worked in 2021 to revisit the Vision, Mission and Values statements through a consultative process with staff and students. This process allowed us to check the alignment with BCE's Vision and Mission Statements but, importantly with the Mercy Charism which we value so highly at St Mary's.

Through this collaborative process we gathered feedback from staff and students that asked them to consider how we educate young women in the 21st Century with a continuing passion, energy and Commitment, which Catherine McAuley founded in the Sisters' of Mercy in Ireland in the 1830's.

These statements are still to be finalised:

Vision

Our vision at St Mary's College is to empower our young women to become compassionate, resilient individuals who live with integrity and faith.

Mission

With Jesus and Mary as our models, St Mary's College provides a quality holistic education in a caring Catholic community. All students are challenged to become confident and creative individuals and successful lifelong learners through contemporary and innovative learning opportunities.
